"Self Trust IS The first Secret Of Success" Anonymous

Let's Start With Some Basic Truths

What bothers many people in our group lately is all of these claims about how you can make all this **BIG** money online by simply buying into a certain program and sitting back and letting the system work for you.

Granted, many of these systems are jam packed with great graphics and have a ton of technology in them. And, the presentation of the opportunity is nothing short of spectacular. But....

**You must know the First Truth of Any Online Business.
People buy from people or groups they like and trust.**

This has been the case since people started selling. Still, many sites promote all these great promises.

The bottom line message still is "Get Rich and Don't Lift a Finger." Or in "just a few minutes per week you can make 150K per year." Or I love the ones that say "Just find 7 people to deposit \$20/£10 in your paypal and have them do the same. And in a couple months you'll be a millionaire." Yeah right!

What bothers me the most I guess is that many people are being taken advantage of. This is just not right. **You will get more out of life being straight than as someone hiding the truth.**

****The truth is: Many people won't make much money in these programs and there are many that will make a fortune!**

Which one will you be?

The key to making massive money is treating this as a REAL business. Then doing all you can to learn this business and how to be successful in it.

What business am I referring to? The business of Online Marketing! This is an awesome business! It takes a little time to learn, but, when you do..... **WATCH OUT**, because the sky is the limit as far as earning potential is concerned. And besides the money, which is great, **the time freedom and lifestyle that you create is tremendous.**

I mean, what good is a bunch of money if you don't have the time to enjoy it!
Having the time and the freedom to do what you want, when you want it is
what having a successful online marketing business

With this type of business, you can continue to build your business and profit **from anywhere in the world.** All you need is a computer and an internet connection. Talk about freedom!

Now, you may desire all of this but have no idea HOW to do this right?
****So what is the best way to achieve this?** (The answer is really simple but powerful...)

PERSONALLY partner with an individual or group that are already achieving the success that you desire!

I recently read an interesting book called "***The Success Principals***"

The main principle is, surround yourself with great men and women, or those that are successful, and you will benefit from their experiences and successes. They will rub off on you. This is a **profound truth** that if understood will catapult your likely hood of success.

Because of this fundamental principal is it vital to therefore work within a team of successful people. The team that have established to most successful leaders in YourNetBiz is called the "**Turn-Key Marketing Group**".

The fact is there are countless business opportunities out there and many are worth while, however, with any online business, marketing is the key to the profits you're looking for.

What this group is designed for and our private training site is set up for is to **help you in every aspect of your online business career**. This group holds the answers you're looking for in many respects.

With the Turn-Key Marketing Group, we focus on training our members how to market ANYTHING ONLINE the most effectively as possible. We go through all the steps needed to be set yourself up properly so you can be assured of the success you desire.

We also **share a variety of effective resources you can use** to assist you in advertising your business without having to be some marketing guru, even though that is eventually what you'll become in time!

Also, it's a common misconception that the amount of available funds to put towards advertising is relative to your future success and/or income. Not the case at all.

It's actually HOW you APPLY the funds; that is the critical issue here, not how much money you have available. The main focus of our training is to show you how to have the most EFFECTIVE marketing available. This goes into the set up of your business and how you continue to set yourself apart from the crowd.

Are You Ready?

Since there is quite a bit of information, why not grab your favorite beverage, sit back, relax and let's get started. By the way, if you would like to speak to me about **YourNetBiz** (or online marketing in general) **please just pick up the phone** or contact my assistant and we'll set up a time that's convenient for both of us. (My Info is at the end of this e-book.)

When I first began exploring the world of online marketing, I sought to find others who had already found success with such money making ventures. I wanted to learn exactly what others were doing and **WHY** they were doing it. I needed to learn **how to fish, not just given a fish**. Again, I realised the benefits of learning from those who were already creating great wealth for themselves and their families.

This is **EXACTLY** what I have done.

Through my researching, I have been fortunate enough to work with incredible achievers in the world of online marketing to learn from and avoid many of the pitfalls that so many people fall into. They have taught and continue to teach me more and more on a regular basis.

And the best part is... that this education is offered **FREE** of charge when you find the right people and groups...

What I have learned about these Automated Businesses is that a tremendous income **IS** attainable if you know how to **effectively market** them. That's the key. With a true knowledge of online marketing, you too, can take this program (and any other for that matter) to **great heights very quickly**. Not so long ago I was in your position. I was looking for a way to make money online and not spend all my time doing it. I thrived to find a business that I can run from my home and at the same time have the **freedom to have a life and travel**.

In all my research I've learned that **NO** business can succeed with out effort of the business owner.

There is NO such thing as a 100% Automated Business

I have created my business to virtually run on autopilot, and you can too, IF you know how to **set up the business ahead of time properly**. This is what is so important if you want your **freedom from your business**. It's all in the set up. And I can show you just that.

I had recently moved across to the opportunity; YourNetBiz after marketing "my own products and websites in the dance niche..." for approximately a year. After a thorough review of this opportunity I discovered that this business would be very powerful if you knew what to do with it.

They have put much thought into their program. What impressed me most was the incredible amount of **quality products** you receive when you join and the reduced levels of 'unprofessional' hype that many other programs have.

A lot of people ask, "What's the **product** here? What are you **selling**?" I will do my best to explain this to you.

The **YourNetBiz** business is a type of automated marketing system. It is designed to handle the presentation and sales portion of your business. Basically the "Telling and Selling."

As a **YourNetBiz** business owner your responsibility is to generate "*Targeted Traffic*" to your site and let the system sort and close your interested prospects. The video presentation and detailed tour is fantastic and the explanation of the compensation plan is outstanding.

What's the Product?

#1 – Comprehensive Training

If you or anyone else for that matter wants to make money using the internet there is one vital skill you will have to learn..... **MARKETING!** You could have the best product or service in the world, but if you don't know how to market it – you will make no sales!

This is the main reason I chose YourNetBiz over any other business. I know from my experience 99% of people that come online to make money don't know how to market!

This is why offering a business in a box that teaches people how to market online is so RED HOT! Especially with the current economic climate right now coupled with the fact that more and more people are joining the internet community!

You can find out more detail on the tour about the training

I suppose in a nutshell it is kind of like marketing a seminar teaching people how to make money online. I know people who pay thousands to attend two day workshops and end up just getting overwhelmed as too much is crammed in a short space of time.

They leave with ideas but have no vehicle to take action with.

YourNetBiz solves this problem! You can go through the training at your own pace and is there when you need it. This is one of the largest resource tools that you can find out there today.

There are just under 1000 **training videos in the media vault** covering all forms of advertising and marketing you can use to market any business online using any marketing method or strategy you choose to use.

This training is done with videos because you get to look over the shoulder of the trainer so you can see **EXACTLY** what they're doing in order to assure you that you will be able to **DUPLICATE** what they are teaching.

The training is designed to around usability and ease of learning. YourNetBiz makes it as easy as possible for you to master the techniques and strategies you'll use to make all the income you need from marketing anything online. You also have access to conference calls & webinars to reinforce the training you are going through.

#2 – Information Products

You will have **FULL** access to **thousands of dollars** worth of amazing software and wealth creation resources, physical products and other informational products in over 88+ different niches.

Some products come with full **RESALE rights**. This means you can turn around and **RESELL** them and **keep 100% of the profit you generate** from the sale if you wish to. This is an incredible online info product inventory that would cost you countless thousands of dollars and time to put together on your own.

Certain products also contain **PRIVATE LABEL RIGHTS**. This means that you can put your name on the product **as if you created it**. Then sell it and keep 100% of the profits. Of just give it away and build trust and confidence with your market.

The software is mostly designed around internet business and marketing. Much of this software is very helpful in marketing and improving your business.

The software can help with everything from putting audio or video on your website (if you have one), to building web pages. There is other software that can be used for marketing. A lot of the marketing type software will help you automate many of your marketing tasks such as, article submission or working with Google or other advertising mediums.

You even get your very own *"Internet Store Front"* and **proven sales pages** already customised with your information in order to market these products! There is a tremendous value in all of the **Software and Wealth Creation Resources, ebooks & physical products** you have access to. But, there's more...

#3 - Exclusive Travel Club - PrimoVacationsOffer.com (Platinum Members ONLY)

This is where you get access to updated premium vacations at a FRACTION of the cost it would normally be.

With the Primo Vacation club you will have more choices and receive the best value you could possibly get for these vacation deals. And you don't need to worry about any "sales pitch" for getting these incredibly opportunities. The hot weeks promotion allows you to stay at condos and resorts worldwide for \$100 per week, and that's per accommodation not per person.

You will have a chance to stay at **4 – 5 Star Properties for a ridiculously low cost**. On top of the savings for vacations, you also can save big on Hotels, Airfares, Rental Cars and more. **This is a full service, private club that you now belong to saving up to 80% on luxury travel.**

Primo Vacations is an additional business opportunity itself where you get \$500 for every person you recruit into the Primo Vacations Vacation Club.

#4 – The YourNetBiz Business Opportunity Itself!

Many people are particularly interested in this. With this business you not only receive an immense amount of products, but also have an AWESOME opportunity to create a tremendous income with this organization.

As a business owner in **YourNetBiz** you have a financial vehicle that enables you earn a Full – Time (Executive) income, in a short period of time.

Unlike many other businesses out there, you don't need a tremendous bank roll to get started. And once you're up and running, you make **\$300 - \$2,000 each & every sale that your system closes for you**. Just imagine one sale per month. (Not bad part time income for most.)

Or, how about one sale per WEEK? (Now we're getting better.) Or even better, one + sale per DAY!! (NOW we're talking!) This is all possible with this business. There are MANY of us doing this and MORE.

The key is HOW to market it.

This program separates itself from the others because they provide the business owner with **several products designed to assist in the success** of your business.

YourNetBiz uses a proven wholesale/retail model where you get paid first and then the company gets paid, not the other way around. No waiting a month for a check from the company, you're paid directly from each new member.

It can just keep going because every person that comes through your business owes you a proportion of each and every one of their **sales for life**.

That's **true perpetual leverage** and can generate significant profits months and years down the line.

Remember that **YourNetBiz** was created to **bypass** most of the variables that cause 95% of people to fail in a home business.

In many other online opportunities you may be familiar with, especially network marketing, you must speak with people non stop throughout the day. The problem lies in the fact that there are only so many hours in the day. The efforts required to make such an opportunity flourish are very great and overwhelming. Thus, failure is virtually eminent. In order for any business to be successful the ability to **duplicate one's efforts** is the key.

Duplication is so important!

YourNetBiz helps this happen by providing everyone that joins with countless resources that will give you a better chance of success. There is a plethora of marketing help in the back office once you join. This is where the "work" part of this business comes in.

This information is great for your education if you are new to this business of online marketing in general. In the back office you will have categories such as these to help you in your marketing efforts:

Training & Support (Just a small Sample)

- Getting Started
- Customer Support
- Recorded Training
- Live Training Schedule
- Media Training Video Vault
- Regular motivational calls

You also get your own ready made capture pages to market (where prospects put their email in prior to going through to your tour) the moment you join the business.

Learning **how to build a list is vital in your success in any online business**. We teach you EXACTLY how to make that happen and then how to monetize your list for even more income.

Here are some examples:

Automation & Outsourcing

Now with the automation that your YourNetBiz system provides, you don't have to talk to people on the phone for eight hours a day, like most others businesses require, in order to make any serious money.

You no longer spend hours on the phone "sorting," you just let your system work 24/7 for YOU!

In fact, you don't have to talk to anyone if you don't want to. Your **Personal Business Assistant** and the biweekly conference calls can handle all that side of the business for you!

That's Right!

Your OWN Personal Business Assistant is there to help you bring people into your business. Let them answer the questions your prospects will have about your business.

This way you can focus squarely on your marketing and not have to worry about "closing" sales. Outsource that to a professional.

See outsourcing is how to **truly leverage your time** and will lead you to great success. The reason is simple. You want to focus on what you're good at and then outsource the rest to those who are better at that then you.

"Its about working smarter not harder" Dawn Mendonca

Don't try to do everything yourself.

Find and build a team around you that will help you reach the success you desire.

This system automatically sorts through all your prospects to weed out the 'tire kickers,' so you don't have to.

The best way I think I can explain this business is to equate it to a gold miner....

He grabs the sand with a sifter and he sifts through the sand over and over again, and guess what? What's left are just the *gold nuggets*.

That's what your YourNetBiz System will do for you.

Most of the people that take a tour of The YourNetBiz system are sorted out, **that's what you want...** you don't want to SELL them; you want them to JOIN when they are interested and ready.

That's what your system does for you. It does all your presentations for you. When someone is interested, that is when they take the next step. Some people will take days, some weeks and there are even some that will take months to join.

Now the next step might be an email, a phone call or they may just buy. But, your system is doing all the work. **You are just continuing with your life as your SYSTEM works for YOU!**

This is really what it boils down to - 95% of people in all home businesses fail. That's just the reality. The internet is a virtual business... we're heading away from the traditional forms of business that many of us have known in the past, yet there is only a select few people that know these systems actually exist!

How Much Do You Earn For Every Sale?

Members earn a commission of every sale they make, then from each sale, they make a payment to their sponsor, (override fee) & a wholesale fee to the company.

The amount of commissions you can earn is in DIRECT proportion to the level that a member joins at. The higher the level the higher the commissions.

You will find that there are some members earning thousands a day with YourNetBiz.....but let's not get too carried away just yet... what would an extra few thousand \$\$\$ or £££ a month do for you?

Let's look at the breakdown of the different levels...

Membership Breakdowns

**There are 4 main options to join the company:
Here's the compensation plan at a glance:
All these numbers can seem overwhelming, so here's
a crystal clear explanation...**

If you become a Bronze member, you get \$300 on your first sale, \$100 on sales made from your members.

Become a Silver member and get \$700 on your first sale, \$150 from member sales.

Join as a Gold member and get \$1,400 on your first sale, \$300 on your member sales.

Become a prestigious Platinum member and get \$2,000 on your first sale, \$500 on sales from your members and squeeze every ounce of profit from your advertising...

****Please note:** You can come in at a lower level and then upgrade later, but there will be a **20% increase in cost when upgrading**. Bottom line is – the more serious you are about making money – the higher the level you will want to join.

ALSO, you need to realise that if you come in at a lower level and you make a sale at a level higher than you joined at, you make the full commission for the level you are at and then the extra money goes to your sponsor or who ever is next in line above you at the higher level if your sponsor is not at that higher level.

SO, Can You Really Make "Serious" Money With This?

Since I don't know you, your background, experience or marketing ability, I can't honestly predict how successful you'll be in YOUR business. This system **will only be a profitable as YOU make it**. You can not rely on anyone else to build your business.

Another Truth:

Myself and our group will be happy to provide you with the ways to be successful, but it ultimately **still falls on your shoulders**. If you do not put these techniques and strategies to use, then you will have a tough road ahead.

If you have additional questions after taking the full tour, **please feel free to request a call back, or even give me a call**.

The real truth is that **Effective marketing** is the secret to your success in any program. If you're serious, our group can teach you EXACTLY how to generate this kind of income....

One of my primary motivations is of course to earn money for me and my family; however, it's also very rewarding to be able to **help other people** who are also looking for ways of improving either their finances or quality of life... usually both. And let's be honest, the more you earn..... the more I'll earn, so in essence we're partners together!

While making money is important, I've found that once you start making good money, money becomes unimportant and **your lifestyle, health, relationships, and your family, friends and the things that you can do, become the most important**.
And that's exactly what I'm here to help you experience more of.

Passive or Active? You Decide...

"So, can I really sit back and do relatively nothing, and still make money?"
The short answer is **Yes!** But if you choose to be relatively passive, don't expect to receive the kind of results you see and hear other proactive members achieving.

Yes, there are many of us that are making five figures per month and even per week in this business, but we're also very proactive with our marketing and have most likely invested a good amount of time and money in marketing as well.

There's no free lunch. And if you don't know how to market, that's okay.
YourNetBiz Offers A Hands Free solution with Co-op Marketing Campaigns.

Yes, they can start marketing your site, but don't expect 5-10 sales a month from it. You may make some money, but it will take a little longer for your business to become profitable. It takes some time to fill your pipeline with interested prospects.

You also will have a **Private Marketing Site**, if you choose to join with our group, that you can go to and learn EXACTLY what us top earners are doing and how we are doing it.

This is HUGE. All you have to do is copy us and you will be profitable. You CAN duplicate our success!

I am confident that this program delivers **IF** you commit to it and **treat it like a business.**

Another Truth:

You have the choice of being PASSIVE or ACTIVE with your business, but the reality of it is, if you DON'T purchase any advertising, or you DON'T carry out any promotion yourself, then you will NOT generate ANY income from your business, period! - Every legitimate business must advertise, so do one or the other - or both.

When I think of YourNetBiz as investing in a business (like a franchise), it looks a lot different. Owning a business doesn't necessarily mean you have to actually work all the time in that business. Your role as the business owner is just that. You own it... you invested in it.

As you grow your business you will find people and resources to do jobs for you. Think of it as like owning a McDonalds. When a new Mickey D's owner comes in, they need to go to McU (university) and learn every aspect of their new business.

If they need to work fry's then they do. But most often is the case they have their employees doing those jobs and they just run their business.

You will learn all the different ways to work your business, but in time pass off those responsibilities to others to free up your time.

Is YourNetBiz Right For YOU?

YourNetBiz is a program that's designed for people who have some financial resources available (\$495 minimum as Bronze associate - \$2995 as a platinum associate) and **big financial goals**.

If you're looking for a full, turn-key business (no job seekers please) with the ability to generate a serious income in the first year and you have the resources to start a business like this, then YourNetBiz may be for you, but honestly, **only YOU know what's best for you**.

You'll need \$495 minimum to get started, plus an ongoing monthly fee of \$59.95 paid to the admin for the website, back office, support and hosting. A very small fee considering all the income this business can generate.

You will also need some funds set aside for advertising and marketing. I would recommend starting with no less than \$250/£150. This is a good figure to get your business up and running.

I would then recommend that you figure on investing at least a few hundred each month for continued marketing. I take a portion of each sale and put it towards my marketing budget. **There are also hundreds of FREE ways to market, but they require time on your part to implement.

Understand you will have help on what and where to market when you join with me and our group. This information can save you a TON!

No internet or business experience is required to get started, but the more marketing skills you have & learn, the more you can make. I can also share with you what works for me if you choose to be proactive in your marketing, but be prepared to be patient and become a student of marketing if you don't have much experience.

So the **Truth is** The **YourNetBiz.com** business is not for everyone. As mentioned before, even though YourNetBiz can be as automated and passive as you'd like, **I take an active role** in working with anyone that joins me in this program, especially if you want to generate **substantial profits**. When you join with me in YourNetBiz, myself and our group will share with you **little-known strategies** that work.

The reality is that it *takes most people years of trial and error* to develop a sixfigure income working from home. At the same time, there's no magic to what I do or what I've accomplished and there are no magic secrets regardless of what some may tell you.

It's simply a matter of learning and applying simple and proven marketing techniques.

****You'll also get access to our live training calls conducted by the most successful leaders in the online marketing world!**
"Success is not counted by how high you've climbed, but by how many people you brought with you."

I'm honoured to have had the privilege of serving people from all walks of life, all races, all religions, and many countries and cultures. It's a responsibility I don't take lightly. I value the friendships I've made in the home business arena, and I want you to be glad you got to know me.

"If you want to be successful, find someone who has achieved the results you want and copy what they do and you'll achieve the same results." Anthony Robbins

What makes Turn-Key Marketing Group different than every other group on the market?

*The fact is, we're NOT a bunch of would be "guru's" but, just a close knit group of **regular folks who work together in a spirit of synergy to help each other succeed and profit online.***

We have successful and established internet marketers within our group and we all work together to help each other get the most out of everyone's business.

Sometimes it's the new member that shares a piece of information with the group that opens our eyes and helps us all. **Everyone is important and equally valued.**

There are no "*captains or chiefs*" among us. We all work together as a large MASTERMIND group with a common goal of success in mind.

This organization was formed out of a sincere desire to help others. There was never a goal or plan to build this group it sort of just came together out of necessity.

This is precisely what has made Turn-Key Marketing Group the largest and most successful marketing group within YourNetBiz.

See, there are so many others that promise the sun and moon and once you get involved, you're left to fend for yourself. The cold hard truth is that most are just after your money, unfortunately.

"Little Orphan Annie?"

They don't care about creating long term relationships. In fact, **most don't even care to speak with you after they've been paid**. I only know this too well because after being in this industry for a couple years, and having my phone numbers and email published, I get contacted from "orphans" on a regular basis.

What's an "orphan"?

Well, that's someone who joined a business looking to improve their situation like the rest of us and was promised help and support and then when they came on board, **they were abandoned**.

Unfortunately, this happens way more than you would think. Now, this could be because the sponsor has gotten out of the business, lost their phone, or internet connection, or joined the "Sponsor Witness Protection Program".

Who knows, maybe they just don't care.

I really don't know, but that's one of the reasons why Turn-Key Marketing Group was formed; **to follow through with the help and support AFTER a member joins**.

"So, aside from the PERSONAL Help and Support, what else is different?"

I feel that the personal HELP and SUPPORT are the most important ingredients to success, however, our team provides much, much more. We offer in-depth, exclusive training and a unique marketing system only available through our organization.

We will show you EXACTLY HOW to build your own YourNetBiz business (yeah, I know that's a mouthful). :-)
